ILLINOIS COMMERCE COMMISSION**

COMMONWEALTH EDISON COMPANY	)	
	)	
Approval of the Energy Efficiency and	)	Docket No. 07-_____
Demand-Response Plan Pursuant to Section 12-103(f) of	)	
the Public Utilities Act	)	

**PETITION**

Commonwealth Edison Company ("ComEd") hereby requests approval of its Energy Efficiency and Demand-Response Plan ("Plan") pursuant to Section 12-103(f) of the Public Utilities Act ("PUA") (220 ILCS 5/12-103(f)). In support of that request, ComEd states as follows:

1. In accordance with recently passed legislation, P.A. 95-0481, ComEd is required to submit a Plan in the manner prescribed by new Section 12-103 of the PUA. (220 ILCS 5/12-103.) Specifically, Section 12-103(f) requires that, by no later than November 15, 2007, each electric utility shall file a Plan with the Illinois Commerce Commission ("Commission"), to meet the energy efficiency and demand-response goals for the period, June 1, 2008 through May 31, 2011. Accordingly, on or before November 15, 2007, ComEd will submit its Plan in support of the relief being sought by this Petition.

2. This Petition is being filed in advance of the November 15, 2007 deadline for the Plan in order to allow for appropriate notification to be given to municipalities served by ComEd to facilitate the compressed schedule contemplated by the legislation. (220 ILCS 5/10-108.)

3. The Plan will identify cost-effective energy efficiency measures which, together with those measures administered by the Department of Commerce and Economic Opportunity

(“DCEO”) and included in DCEO’s separate filing, are designed to meet the incremental annual energy savings goals identified in Section 12-103(b).

4. The Plan will also describe the cost-effective demand-response measures designed meet the goals identified in Section 12-103(c).

5. The Plan will also be filed in accordance with Section 12-103(e). Specifically, ComEd will implement 100% of the demand-response measures. Further, ComEd will implement 75% of the energy efficiency measures approved by the Commission and DCEO the remaining 25%, the latter of which will be set forth specifically in DCEO’s filing pursuant to the legislation.

6. In support of the goals and objectives of the Plan, ComEd will also offer a cost recovery mechanism by which the associated costs and expenses with regard to the energy efficiency and demand-response measures will be recovered. Exemplar tariff provisions will be submitted with the November 15, 2007 filing, which will include the necessary formulae by which the costs of the aforesaid measures will be recovered and also provide for an annual reconciliation. In addition, as also provided by Section 12-103(e), the aforesaid automatic adjustment clause tariff will allow for ComEd to recover the costs estimated by DCEO with regard to its energy efficiency programs. Because of this, it is anticipated that customers’ rates will be affected.

7. In support of the Plan, ComEd will submit certain testimonies and exhibits that will both identify the energy efficiency and demand-response measures to be implemented, and the process by which that implementation will take place. Further, the testimonies and exhibits

will also put forth the necessary tariff provisions that will permit cost recovery in the manner permitted under the new legislation.

**WHEREFORE**, ComEd requests that the Commission approve the Plan, the proposed cost recovery tariffs, and for such other relief as is appropriate.

Respectfully submitted,  
COMMONWEALTH EDISON COMPANY
